

## Material Safety Data Sheet (MSDS)

Last updated: 1st October 2015

### **Section 1 - Product and Company Identification**

Product Name: Manganese Violet

C.I. Pigment Violet 16 (77742)

CAS No: 10101-66-3

Supplier: Pure Rock Mineral Cosmetiques S.L.

Address: Boulevard de la Cala, 29649 La Cala, Malaga, Spain

Company Registration Number: B93180727

Distributor: U-Makeitup.com

### **Section 2 - Composition**

Manganese Ammonium Pyrophosphate - 100%

### **Section 3 - Hazards Identification**

This substance in itself is not classified as hazardous.

Avoid contact with strong alkali which could result in the liberation of ammonia which is a flammable toxic gas.

### **Section 4 - First Aid Measures**

Skin Contact: Does not irritate the skin, wash off with soap and water.

Inhalation: Remove from area of exposure to fresh air. Seek medical attention in case of complaints.

Eye Contact: Rinse eyes with running water.

Ingestion: Non toxic no action needed. Seek medical attention in case of complaints.

### **Section 5 - Fire-Fighting Measures**

Product is not flammable but toxic irritating ammonia gas can be generated if this product undergoes chemical decomposition during a fire.

Extinguishing Media: Use extinguishing methods appropriate for surrounding fire.

Protective Equipment: Fire fighters should wear fully protective suits and self contained breathing apparatus.

### **Section 6 - Accidental Release Measures**

Wear suitable protective clothing and ensure adequate ventilation.

Methods For Cleaning Up: Keep the formation of dust to minimum levels.

Scoop, sweep or vacuum excess powder into a container for disposal.

Prevent seepage into water systems.

## **Section 7 - Handling And Storage**

Precautions In Handling: Ensure good ventilation and avoid formation of excessive dust.

Storage Conditions: Store in a tightly closed container in a cool, dry room at avoiding direct exposure to sunlight. Do not store with alkalis.

## **Section 8 - Exposure Controls / Personal Protection**

Dust mask should be worn if the dust concentration is more than 10 mg/m<sup>3</sup>.

Use in a well ventilated area to control dust exposure to applicable limits.

Clothing: Use an apron or protective overalls to avoid staining of clothing.

## **Section 9 - Physical And Chemical Properties**

Form: Powder.

Colour: Violet.

Odour: Odourless.

Solubility In Water: Insoluble

Decomposition Temperature: Greater than 400°C.

Flammability: Product is not flammable.

Explosion Risk: Product does not present an explosion hazard.

## **Section 10 - Stability And Reactivity**

Chemical Stability: Stable under conditions below 250°C.

Conditions to avoid: Humidity, Direct Sunlight, Contact With Alkalis.

## **Section 11 - Toxicological Information**

Classified as non-toxic.

## **Section 12 - Ecological Information**

Considered essentially not harmful to the environment.

## **Section 13 - Disposal Considerations**

Non hazardous waste.

Dispose of according to local and national regulations.

## **Section 14 - Transport Regulations**

Not classified as a Dangerous Good.

Considered non hazardous for transportation by land, sea or air.

## **Section 15 - Regulatory Information**

National inventory numbers:

EINECS 2-332-574

TSCA (US) 10101-66-3

## **Section 16 - Other Information**
