

## IFRA CONFORMITY CERTIFICATE

|                     |    |                         |          |
|---------------------|----|-------------------------|----------|
| <b>Product Name</b> |    | Bay Oil West Indian     |          |
| <b>INCI Name</b>    |    | <i>Pimenta racemosa</i> |          |
| <b>Batch Number</b> |    | BAYWI-010520            |          |
| <b>Revision No</b>  | 01 | <b>Date</b>             | 28/06/19 |

We certify that the above compound is in compliance with the Standards of the INTERNATIONAL FRAGRANCE ASSOCIATION (IFRA 48<sup>th</sup> Amendment), provided it is used in the following class(es) at a maximum concentration level of:

| IFRA Class(es) (See Annex for Details) | Max Level of Use (%) |
|--|----------------------|
| Class 1(*)                             | 0.02*                |
| Class 2                                | 0.02                 |
| Class 3A                               | 0.40                 |
| Class 3B                               | 0.91                 |
| Class 3C                               | 0.02                 |
| Class 3D                               | 0.02                 |
| Class 4A                               | 0.40                 |
| Class 4B                               | 0.91                 |
| Class 4C                               | 0.02                 |
| Class 4D                               | 0.20                 |
| Class 5                                | 0.02                 |
| Class 6(*)                             | 0.05*                |
| Class 7A                               | 0.02                 |
| Class 7B                               | 0.02                 |
| Class 8A                               | 0.02                 |
| Class 8B                               | 0.05                 |
| Class 9A                               | 0.05                 |
| Class 9B                               | 0.05                 |
| Class 9C                               | 0.05                 |
| Class 10A                              | 0.05                 |
| Class 10B                              | 0.02                 |
| Class 11                               | 0.50                 |

### IFRA Non QRA Restricted Standards

#### Phototoxicity:

This material contains the following restricted ingredients and as such this product is restricted to the maximum use levels (%) in the product categories indicated below.

| Ingredient | Skin Contact Product<br>Leave On Products | Skin Contact Product<br>Rinse Off Products | Non Skin Contacts<br>Products |
|------------|---|--|-------------------------------|
| None       | N/A                                       | N/A  | N/A                           |

Additional Comments:

### Carcinogenicity:

This material contains the following restricted ingredients and as such this product is restricted to the maximum use levels (%) in the product categories indicated below.

| Ingredients | Fine<br>Fragrance | Eau de<br>Toilette | Fragrancing<br>Cream | Other<br>Leave On | Rinse Off | Non Skin | Other Non-<br>Cosmetic Products |
|-------------|-------------------|--------------------|----------------------|-------------------|-----------|----------|---------------------------------|
| None        | N/A               | N/A                | N/A                  | N/A               | N/A       | N/A      | N/A                             |

Additional Comments:

For other kinds of application or use at higher concentration levels, a new evaluation may be needed; please contact H Reynaud & Fils (UK) Ltd.

The IFRA Standards regarding use restrictions are based on safety assessments by the Panel of Experts of the RESEARCH INSTITUTE FOR FRAGRANCE MATERIALS (RIFM) and are enforced by the IFRA Scientific Committee. Evaluation of individual Fragrance ingredients is made according to the safety standards contained in the relevant section of the IFRA Code of Practice. This certificate serves only as a guide to the maximum level of use. It is the ultimate responsibility of the customer to ensure safe formulating principles are utilised and the safety of the final product (containing this fragrance), by further testing if need be.

**DISCLAIMER: This information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process. Such information is, to the best of the company's knowledge and belief, accurate and reliable as of the date indicated. However, no warranty guarantee or representation is made to its accuracy, reliability or completeness. It is the user's responsibility to satisfy himself as to the suitability of such information for his own particular use.**

### ANNEX: Definition of IFRA Classes

| FINISHED PRODUCT TYPES   | IFRA<br>CATEGORY |
|--|------------------|
| Lip Products of all types (solid and liquid lipsticks, balms, clear or coloured, etc.).<br>Children's Toys.  | Class 1          |

|--|------------------------------------|--|
|  | <b>IFRA CONFORMITY CERTIFICATE</b> |  |
|--|------------------------------------|--|

|   |  |
|---|--|
| (liquids, powders, tablets, etc.) including laundry bleach and concentrates, Hand Dishwashing Detergent including concentrates, Hard Surface Cleaners of all types (bathroom and kitchen cleansers, furniture polish, etc.), Shampoos for pets, Dry cleaning kits, Scented gloves, socks, tights with moisturisers. |  |
|---|--|

|                             |                  |
|-----------------------------|------------------|
| Diapers, Toilet seat wipes. | <b>Class 10B</b> |
|-----------------------------|------------------|

|   |                 |
|---|-----------------|
| All non-skin contact or incidental skin contact including:<br>Candles, Air Fresheners and Fragrancing of all types (concentrated aerosol with metered doses (range 0.05-0.5ml/spray), plug-ins, solid substrate, membrane delivery, electrical), Air Delivery Systems, Cell Phone Cases, Pot pourri, powders, fragrancing sachets, liquid refills for air fresheners (non-cartridge systems), Reed diffusers, Liquid refills for air fresheners (cartridge systems), Shoe Polishes, Deodorisers/Maskers not intended for skin contact (e.g. fabric drying machine deodorisers, carpet powders), Insecticides (mosquito coil, paper, electrical for clothing etc.) excluding aerosols, Scent delivery system using a dry air technology that releases a fragrance without sprays, aerosols or heated oils (technology of nebulisation), Air freshening crystals, Toilet Blocks, Joss Sticks or Incense Sticks, Machine Dishwash Detergent and Deodorisers, Machine-only Laundry Detergent (e.g. Liquitabs)**, Plastic articles (excluding toys), Fuels, Fragranced lamp ring, Scratch and Sniff (sampling technology), Paints, Cat Litter, Animal Sprays (all types), Treatment products for textiles (e.g. starch sprays, fabric treated with fragrances after wash, deodorisers for textiles or fabrics), Floor Wax, Odoured Distilled Water (that can be added to steam irons). | <b>Class 11</b> |
|---|-----------------|

\*Class 5, Facial Masks: There are several types of mask: peel off (similar to rinse-off, rinse-off and leave-on (you only remove the excess with facial tissue). To ease the split the most restrictive, i.e. leave-on is applied for all.

\*\*Liquitabs corresponds to a dose of liquids wrapped in a film: no contact with hands is expected under normal conditions of use.

The table was prepared with the intention to cover the vast majority of the products; however, it may not cover some specific applications. In this case other classes may be attributed bases on a specific risk assessment.
