

## Product Data Sheet

Decyl Glucoside

INCI Name	CAS Number	EINECS
Decyl Glucoside	68515-73-1	No longer polymer
	110615-47-9	No longer polymer

Parameter	Unit/Method	Specification
Appearance at 20 °C		Light yellow cloudy viscous liquid or paste
Active matter	%	50.00 min.
Free Alcohol	%	1.00 max.
Sulphated Ash	%	4.00 max.
pH value		11.00 – 12.50
Viscosity @ 20 °C	mPa.s	≥ 1,000.00

### Additional Comment

Due to the presence of magnesium oxide and the high pH value, turbidity may occur. This turbidity has no adverse or negative effect on the performance. Once the pH value is adjusted to neutral turbidity disappears. There may be crystallisation when the product is stored at room temperature. The product should be heated and stirred until uniform before use.

### Storage & Transportation Comments

When stored properly at room temperature Decyl Glucoside remains stable for at least 2 years.
