Pack Sizes	1kg, 5kg, 25kg, 200kg
CAS Number	90063-37-9
EINCS Number	290-260-3
Customs Tariff Code	Not listed
The Oil Factor	O&3 presents Lavender Water, Organic (Hydrolat). This Water is Distilled from the Lavender plant at the highest level of purity to ensure a pure, premium hydrosol. Hydrosols (waters) are the aromatic remains after the steam-distillation process of the physical raw material. They are an excellent complement to essential oils because they are very gentle in their profile. The hydrosol smells like a deeper, earthier version of Lavender Essential Oil. The product is so gentle it has proved very popular in a wide range of baby products. A great relaxant aroma, hence its popularity as aroma mists, and mostly pillow mist.
Functionality	A by product of the steam distillation of Lavender Oil. An extremely gentle product hence its popularity in baby products.
REACH Status	Please see our Material Safety Data Sheet (MSDS).
Food Status	O&3 can confirm that Lavender Water, Organic (Hydrolat) is NOT a food grade product, however it is suitable for cosmetic application. It is not included in the list of substances prohibited in cosmetic products.
